Message from the Principal

It is now common knowledge that Kathmandu Model College (KMC) has made steady and impressive progress in the last twelve years. It is a matter of satisfaction and pride that KMC, which was launched with a vision and a mission, is moving ahead towards its goal. Its achievements are reflected in various ongoing academic programmes. The college continues to be a top ranking institution of higher education in the private sector with excellent scores in class XI and XII, BBA, BBS and BA affiliated to HSEB/TU.

TU result in MA English was 100 percent in 2008/09 and was excellent in 2009/2010. It is gratifying to note that one of the students of this college became last year a TU Topper with aggregate 75.0 percent marks in MA English. KMC started, in 2010, MBS (Master's Degree in Business Studies) classes. The quality of teaching at the Master's level is high because the college has been able to appoint and hire qualified, experienced and competent teachers who not only teach but also guide the students in writing thesis proposals followed by thesis writing. The college is planning to upgrade BSW (Bachelor's in Social Work) to MSW (Master's Degree in Social Work). A research institute called Kathmandu Model Research Foundation (KMRF), established by KMC in 2008, aims to encourage teachers and students to orient themselves in research culture.

KMC's outstanding academic performance in diverse streams has been made possible by its qualified and dedicated teachers as well as devoted and disciplined students. KMC, precisely speaking, has been successfully and satisfactorily running its academic programmes by focusing on discipline, dedication and diligence, the secret of its steady and impressive growth as stated earlier. It is because of such qualities coupled with the emphasis of the college on quality education that students who have passed out from KMC have not only been selected and awarded scholarships for higher studies in technical fields like medicine and engineering but have also availed themselves of job opportunities in their respective disciplines. Mention should also be made of students who have been selected for CA (Chartered Accountancy) and other Management courses.

Prof. Dr. Mohan P. Lohani

Graduates who have majored in English and completed their Management course at the BBS/BBA level are most welcome to join and benefit from the Master's level programmes being run by the college. KMC, in order to help the students build and promote their careers in their respective disciplines, has made available many facilities encouraging students to meet with confidence and challenges that lie ahead, such as well-equipped labs and a well-stocked library with journals, study reports and audio-visual aids. The college has tried hard to make all its programmes, particularly the Master's level programmes, attractive, useful and intellectually stimulating by inviting scholars of national and international standing for seminars and workshops. KMC is confident that its students will find their stay in and association with the college as comfortable, enjoyable, fruitful and rewarding as possible.

Finally, it is our firm conviction that KMC will remain steadfast in its policy of imparting quality education to the young aspiring students with hopes for a bright future. Besides, the college remains committed to positively responding to the changing times and situations and meeting with confidence the challenges that lie ahead. Needless to point out, KMC, with an educational network right from the school level up to the Master's programmes (MA English and MBS), including engineering education at the Bachelor's level has already made its mark as an institution of higher learning by earning coveted laurels since its inception.
Message from the Directors

As a founder director of the Bachelor’s Programme of Kathmandu Model College, I feel happy to state that we have been able to conduct the programmes of BA, BBS and MA in English effectively for the last eight years. Over the years, it has earned unbeatable image among guardians, educationists and students because of its strong focus on academic excellence. The programme of MA in English has become popular as it was launched at a time when pressure of students in English subject was growing tremendously. The programme has fulfilled the need of students who want to get quality education at affordable cost in their own country.

The college conducts seminars, workshops and talk programmes from time to time for MA English with the cooperation of senior professors and well known educationists to make the teaching method qualitatively different. The college holds term examination regularly to evaluate students’ performance and then to take corrective measures accordingly. We hope our guardians and students will continue to show their faith in our endeavour of raising the KMC to further heights of glory and achievement.

Prof. Dr. Shreedhar Gautam
(Director, MA Programme in English)

As a founder director of the Bachelor in Business Administration (BBA) and the Masters in Business Studies (MBS) programmes of KMC, it gives me immense pleasure and satisfaction to inform that KMC has been running MBS courses since 2010 with a view to producing professional managers and entrepreneurs for business and development organizations. The importance of managerial skills in government, business and development sectors needs no overemphasis. Quality education remains our motto in all academic programmes including MBS courses, of the college. I am confident that MBS graduates of this college with highest scores will have opportunity for higher studies abroad, particularly specialization in various Management courses. The college welcomes once again students who have joined the MBS programme at KMC.

Associate Prof. Ajaya Pd. Dhakal
Director
Kathmandu Model College (KMC) established in 2000 right in the heart of the capital city-----Bagbazar/Kamaladi----- has carved out an enviable place among the best colleges in the country. KMC has earned its place of pride through the vision and dedication of a team of academics and professionals who have promoted it, the skill of its panel of professors who possess sound knowledge in their fields and, above all, the brilliance of its students who have been consistently turning in outstanding performance every year. KMC reaffirms its determination to build on the achievement of excellent performance in the form of 100% success in Humanities, 100% in Science and 100% in Management. The growing number of students every year, despite our selective approach to their admission into the college, testifies to our popularity and reputation.

No wonder, KMC is growing like a tree under the successive management team and the leadership of the Principal, Professor Dr. Mohan Prasad Lohani, ex-chief of the Central Department of English, T.U., and a former diplomat. Our remarkable success in running the Higher Secondary Level and Bachelor Level programmes such as 10+2, BBA, BBS, and BA (in Science, Commerce and Humanities) to the satisfaction of students, and our desire to make Kathmandu Model College veritably a "model" for the teaching of English promoted us to start the MA programme in English from January 2005.

Since May 2007, Himalaya College of Engineering, affiliated to Tribhuvan University (T.U) has come under the umbrella of KMC network to enhance the technological know-how of the country in Computer, Electronics & Communication, Civil Engineering and Architecture.

KMC is pleased to inform that Kathmandu Model Research Foundation (KMRF), a research institute, was established in 2008 with the objective of promoting research culture in educational institutions.
COMPUTER LAB

KMC is well equipped with the state of art technology. It has well managed computer lab with 30 desktop computers. It is also equipped with multimedia facilities with two power point projectors and two laptops for classroom teaching. We have been using the facility of multi-media in our classroom teaching. 24 hours internet facility is available for students and faculties.

ENGLISH LAB

MA (English) students can benefit from this lab and learn communication skills such as listening and speaking.

LIBRARY

KMC has a very sound library facility. The text book section of the library is quite rich to serve the demand of the ever increasing number of students. Reference section of the library is equally strong with the availability of widely referred books in the field of management. The availability of selected journals, study reports, audio video CDs and other reference materials has added value in our library and documentation centre.

POWER BACKUP

To overcome the problem of power shortage in our classroom teaching, and more particularly, in computer lab KMC has recently added 10 KVA generator which provides uninterrupted power supply.

CANTEEN FACILITIES

The college canteen serves healthy and hygienic food and beverage at reasonable price throughout the day.

SPORTS FACILITIES

KMC arranges various games including Table Tennis, Badminton, Basketball, Chess, Football, and Cricket.

WORKSHOP/SEMINAR AND SPECIAL CLASSES

Workshop/seminar, lecture discussion and special classes for MA and MBS second year students will be organized on second Saturday of each month and the last Saturday of each month will be devoted to special classes/workshop/seminar and lecture discussion, for 1st year MA and MBS students. MA (English) first year students will attend writing classes of at least two weeks duration in the beginning of the new session.
The importance of English language and literature in the modern world need not be overemphasized. English today enjoys the status of international communication. It is the major international language of science, commerce and international politics. The whole world is linked today by computers through the language of English. Therefore, English as a field of study has been the focal point of higher education in Nepal.

With the growing demand for the study of English at the Master’s level, it has been observed that the Central Department of English of Tribhuvan University is facing tremendous student pressure. The number of students opting for MA in English is so high that the Department is choked with crowded classrooms coupled with disparity in the teacher-student ratio.

In the light of the foregoing, KMC, with its team of qualified teachers, has been conducting MA classes in English in the morning shift since January 2005. Our first batch’s (2005-2007) sterling success with cent percent pass and 45% of first division scores speaks highly of the quality of our MA programme. The first year result of the second batch (2006-2008), has surpassed the achievement of the first batch with 75 percent first division scores. Likewise, the first year result of third batch (2007-2009) with 100 percent first division scores is a matter of pride and satisfaction to the KMC family. It is gratifying to note that one of the students of this college became a TU topper last year in MA (English) with aggregate 75% marks. The same topper has also successfully passed the Public Service Commission (PSC) examination of Foreign Service and has already joined the Ministry of Foreign Affairs (MOFA), Government of Nepal. KMC is proud to inform that all the graduates from the first to fourth batch have got jobs in different government offices, campuses and have also been selected for higher studies in foreign universities.

Admission procedure

- Minimum 45% score at Bachelor’s level and at the equivalent levels recognized by the Curriculum Development Centre, T.U., Kirtipur.
- Must have studied Major English at Intermediate and Bachelor levels.
- Entrance Test of TU and KMC as prescribed in the Application Form is a must.
MASTER OF BUSINESS STUDIES (MBS)

The need for quality education and managerial skills in the government, business and development sectors has been emphasized, in recent years, to cope with ever-increasing demands of the country in keeping with the rapidly changing needs of education. KMC has already been carrying out proficiency certificate level and undergraduate courses in Management for the last ten and eight years respectively. The main objective of running MBS courses is to impart internationally recognized quality education in Management with special focus on management capability at the higher level, to produce professional managers and entrepreneurs for business and development organizations, training and retraining existing managers and, finally, preparing fully well-trained students who want to pursue higher studies in management at home and abroad. MBS programme is based on the curriculum designed by T.U, and students are required to study this course for 2 years with opportunity to specialize in various managerial courses.

Admission procedure

- Minimum 45% scores at Bachelor’s level and at the equivalent levels recognized by T.U.
- Entrance Test of KMC as prescribed in the Application form is a must.
Kathmandu Model College (KMC) has recently signed a Memorandum of Understanding (MOU) with University of Cambridge, ESOL exams. The authorized centre in Kathmandu, Nepal is Universal Language and Computer Institute (ULCI), which will provide assistance to KMC to operate as an Enrolment Centre (EC) for Cambridge ESOL exams. As English is an important skill for a successful career, students can acquire this skill by taking the prestigious Cambridge ESOL Business English certificates (BEC). BEC being a globally recognized qualification, a BEC certificate will improve your job prospects and add value to your CV. There are several advantages of BEC and TKT (teaching knowledge test). Likewise, for Master Level programme, TKT is being introduced. Students are advised to benefit from both BEC and TKT programmes. Students of KMC enrolled in BA, BBS, BSW, BBA, MA and MBS programmes can take advantage of both BEC and TKT programmes in order to enhance their professional careers. KMC will run both BEC and TKT classes as part of the ongoing academic programmes.
